Commercial & Domestic Cleaning and Property Maintenance Services throughout the Southport, Ormskirk, Liverpool, Preston, Wigan & West Lancashire areas.

Infection Control Policy

Infection control is of prime importance and is essential for the safety of all patients and members of staff at both the practice and those employed by Feather Flickers.

We are committed to an approach whereby prevention and control of infection is seen as part of all service delivery.

We committed to working closely, in partnership, with healthcare providers to adopt and promote common good practice and procedure.

We will ensure systems are in place to systematically assess infection risks.

We will ensure, as appropriate, that staff receive relevant training in infection prevention and control.

We will communicate information relating to infection risks and outbreaks to all relevant parties.

As part of the induction process training given to Feather Flickers staff the following is explained:

Prior to donning gloves, hands should be washed using a liquid soap or disinfected with an alcohol based hand rub.

Needles, scalpels & blades shall be disposed of in the yellow sharps container and this must never be more than two-thirds full.

All clinical waste must be placed in the yellow sacks provided in each practice and the yellow sack must be securely fastened and stored in the designated area.

Any accidental spillage including blood or saliva or mercury will be reported to the line manager.

All staff will observe total confidentiality in all information relating to all patients at all times.

Feather Flickers successfully undertook a large contract for IMG, the worlds premier and most diversified sports, entertainment and media company during the Royal Birkdale Open Golf in 2008, Turnberry in 2009 and St. Andrews in 2010.
